### Pro-Ject 1 Xpression UKX

#### Pro-Ject's new mid-range stunner gets a UK exclusive upgrade

*Didcot, Oxfordshire – 27<sup>th</sup> February 2014*

The Pro-Ject 1 Xpression Carbon has been a huge success since its launch in late 2013. During the early months of 2014 the latest version of Pro-Ject's original turntable has received rave reviews from a variety of UK Hi-Fi magazines for being "a cracking little package for the money."\* Now Henley Designs, as the exclusive UK distributors for Pro-Ject Audio Systems, are releasing a UK exclusive version of this popular turntable, in the form of the 1 Xpression Carbon UKX.

The 1 Xpression Carbon UKX advances on the current model with an acrylic platter upgrade that helps elevate the performance of the turntable to new heights. The use of an acrylic platter negates the need for any form of mat, though the UKX continues to include felt and cork mat options to suit a wider variety of listening rooms and sound preferences. Acrylic is also ideal for its ability to have no impact on the sound performance in the audible frequency ranges, effectively allowing the 1 Xpression Carbon UKX to disappear, leaving only your music.

The 1 Xpression Carbon UKX keeps all the premium features from the original turntable, including the one-piece carbon fibre tonearm with an over-sized assembly around the gimble bearing that draws all vibrations away from the arm tube. The pre-fitted Ortofon 2M Silver offers a perfect match for the tonearm and turntable, allowing you to spin your vinyl out of the box with minimal set-up involved. All 1 Xpression Carbon UKX tonearm and main bearings are hand-adjusted and tweaked by Pro-Ject's skilled workforce to offer the best possible performance. The new motor decoupling blobs are also hand-adjusted to tune out any motor noise that could be generated in use.

**The 1 Xpression Carbon UKX is available from March 2014.**

*The original 1 Xpression Carbon in Gloss Black will continue to be sold, though it will keep the original high-gloss steel platter.*

**Suggested Retail Price (GBP): £575.00**
