

Product Announcement

Pro-Ject 2 Xperience Acryl Available Now **Stylish clear acrylic turntable arrives in the UK.**

Didcot, Oxfordshire – 7th January, 2016

Pro-Ject Audio Systems are further solidifying their position as one of the world's best manufacturers of high quality record players that offer great value for money at any level. Their latest release, the 2 Xperience Acryl, has arrived in the UK to replace the hugely popular Xperience 2 Pack model and represents real value for serious audiophiles.

The 2 Xperience Acryl boasts the same stylish clear acrylic plinth as the 2 Pack. However, it also boasts some technical tweaks that bring it into line with Pro-Ject's latest standards, guaranteeing an improved high-end performance compared to its predecessor.

The perimeter belt-drive concept is based on over twenty years of turntable design experience, but the motor is a newly updated design inspired by the 2 Xperience SB, which was released in 2015. The new motor is therefore driven by a purpose-engineered AC generator PCB, which in turn is powered by an efficient DC power supply for optimal rotational and speed stability.

The 2 Xperience Acryl's transparent acrylic plinth is acoustically inert, offering an aesthetically appealing, yet audiophile-focused, solution. The thick black precision-balanced platter is also resonant-free, and topped with melted vinyl records for the ideal turntable mat. The three aluminium coned feet are TPE-damped for a further reduction of unwanted resonances.

The 2 Xperience Acryl is fitted as standard with the high-end 9cc Evolution carbon fibre tonearm. The coveted tonearm design is a proven performer, often found on some of the most popular record players in Pro-Ject's recent history. The tonearm is then finished with the Ortofon 2M Silver moving-magnet cartridge, which boasts silver voice coils for improved signal transmission.

The overall effect of the 2 Xperience Acryl's design is a stylish hi-fi turntable that avoids all unwanted resonances, so you're only left with the music. The package is also neatly finished with a screw-on record clamp and a sturdy dust cover.

SRP £950.00

The Pro-Ject 2 Xperience Acryl is available in transparent acrylic finish in the UK now.

About Pro-Ject Audio Systems

Pro-Ject Audio Systems are widely recognised as one of the finest turntable manufacturers in the world. Their mission is simply to produce the best sounding analogue components at the most competitive prices possible. The current range spans a huge variety of price points, with a variety of products targeted to key demographics or to accommodate the modern listener's unique requirements.

Based in Vienna, Austria, Pro-Ject Audio Systems use specialised manufacturing partners to produce all their products, and the entire turntable range is assembled with great skill, care and attention in the Czech Republic.

About Henley Designs Ltd.

Everyone has a different interpretation of what good sound is, and at Henley Designs we're no different. We strive to bring customers the best possible selection of hi-fi equipment from a variety of international manufacturers.

Formed in 1997 as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. are one of the UK's premier distributors of quality hi-fi equipment. The brands we distribute are not only highly-regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
