

Distribution Announcement

Henley Designs Ltd. to distribute Acoustic Energy in the UK and Ireland

Didcot, Oxfordshire – January 2014

Henley Designs are delighted to announce a new distribution agreement with Acoustic Energy for their range of Hi-Fi loudspeakers. As sole UK distributor for a wide variety of Hi-Fi and DJ brands from around the world, Henley Designs are thrilled to add Acoustic Energy to their already comprehensive portfolio. Managing Director of Henley Designs Ltd., Laurence Armstrong, said of the new relationship:

“We’re delighted to be entering into this new arrangement with Acoustic Energy. They have a rich history of audio excellence, and a clear vision for where they want to go in the future. We see their range as a perfect complement to some of our existing brands, as well as a strong presence in its own right. We’re looking forward to a very successful future together.”

From January 1st 2014, Henley Designs will be offering sales and support for all Acoustic Energy enquiries in the UK and Ireland. Initially they will offer for sale the 3-Series, Reference Series and brand new 1-Series speaker ranges, with more to follow in the future.

The all-new 1-Series of speakers have evolved from the well-reviewed 3-Series (pictured). The range consists of a pair of floorstanding speakers, a pair of book-shelf speakers, a centre speaker and a powered subwoofer. The floorstanders boast a sloping front baffle, like the popular 305 model, while all benefit from the great sound performance and reliable build quality that all Acoustic Energy products are known for. The 1-Series range will be available from January 2014 in two stylish finishes – Walnut or Black.

More on Acoustic Energy

Acoustic Energy Limited was founded in 1987 and originally based in West London before relocating to their current facility in the Cotswolds. In 1988 the iconic AE1 monitor speaker was launched to satisfy the needs of the professional audio sector of the market; offering great accuracy, precise stereo imaging, dynamics, and transparency coupled with high power handling and linearity. With the massive success of this first model, Acoustic Energy has grown expansively over the last 20+ years to become a revered and well-recognised Hi-Fi manufacturer.

Since the company's relocation in 1995, AE has formed a strategic alliance with a large manufacturing and purchasing facility based in the Far East. This has allowed them to design and manufacture phenomenally good loudspeakers with a level of performance that belies their price.

Now, in 2014, Acoustic Energy can boast a product range that caters for every taste. From the introductory 1 Series, up to the premium Reference line - AE can offer something for everybody.

More on Henley Designs Ltd.

Henley Designs Ltd. was formed in 1997 as the result of a management buy-out of Ortofon UK. Since then our extensive knowledge of high-quality hi-fi has flourished, and with it our brand portfolio has continued to develop.

In 2014 we are proud to boast a product portfolio that incorporates some of the world's foremost manufacturers of Hi-Fi and DJ equipment.
